

induction coil for quenching work

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

Induction coil (inductor) is the key of total induction heating system, a good designed induction coil will bring a fast & safe work and protect the induction heater. induction coil for quenching work

Base Induction Coil Design and Theory

Induction Coil Design and Fabrication
