

# induction quenching ball studs and inner tie rod stud with custom-build induction coil

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications  
<http://www.uihm.com>

Induction coil is very important for the induction heating system, different shape, size, material, turns of induction coil will bring different output frequency or output power.

The biggest disadvantage of induction heating is still the induction coil.
